Shoes at Cost Plus 5 Per Cent.

More About the Regal Shoe Co.'s Plan of Scientific and Economical Shoe-Selling

There is a bill before Congress to authorize the coinage of the half-cent

The advocates of this bill say that a half-cent coin would save the public hundreds of dollars a year. Prices like 6½ cents, 12½ cents, 37½ cents, are common in the dry-goods shops. But if you buy only one yard of a 37½ cent muslin, you must pay 38 cents. If you buy a half-yard of 35 cent muslin you must pay, not 17½ cents, but 18 cents. So, the use of the half-cent is urged as a measure of economy.

If it is wise to split a cent, how much wiser to split half dollars?

If the public has lost thousands through the lack of a half-cent, how many millions has the public lost because there was no coin of less value than the half-dollar recognized in shoe stores?

Think a moment and you will see that this is a fact. Have you ever seen a fine shoe of standard make regularly sold at any other price than full dollars or half dollars—\$3.50, \$4.00, \$4.50, \$5.00, and so on?

Standard shoes have always been made to fit these arbitrary prices, fixed in advance. Why? We don't know—except that it is a trade custom, which is no reason at all.

Anyhow, the Regal Shoe Co. have abolished that custom

They have put the selling of shoes on the same exact, scientific, economical basis that governs the pricing of most other necessities of life, and which ought to govern all of them.

Regal Shoes will hereafter be priced at cost of making, plus five per cent. commission and the cost of selling.

Regals will be made in several general price-classes, but the actual price of every model will be figured as above by certified public accountants. AND STAMPED ON THE SHOES AT THE FACTORY.

The price will be stamped just as it figures out (except that there will be no splitting nickels). It may be an "odd" price, like \$3.85, \$4.35, etc.—or it may be an "even" price, like \$4.00, \$4.50, etc. Whatever it really figures, you will pay. There will be no "juggling" either of the shoes or the prices to make the latter conform to tradition.

This stamp is your guarantee or full Regal quality at the lowest price for which such quality can be bought. It takes all the uncertainty, all the unknown profits, all the unnecessary expense out of shoe buying.

It is your guarantee that the LARGEST POSSIBLE PROPORTION of the price you pay is returned in leather and workmanship.

In Regal Shoes MORE OF YOUR MONEY WILL GO FOR SHOE SATISFACTION and LESS FOR SOME ONE'S PROFIT than in any other make you can buy.

In Regal Shoes you get what you want, and pay only for what you get

If a heavier sole, worth 20 cents more, is put into a Regal Shoe that would otherwise sell for \$4.00, the price of that shoe will be \$4.20. Under the old system further and unnecessary expense had to be added also, to bring the retail price up to \$4.50.

If leather goes up, you will pay us only the exact amount of the advance. If leather goes down, you now automatically save 95 per cent. of whatever the Regal factories save. Heretofore, small economies in factory cost could seldom save you anything.

If a new Regal model is designed that can be sold at, say, \$4.35, it will be sold at \$4.35. Under the old system, either the shoe had to be trimmed down to make it cost \$4.00, or unnecessary expense added to make it cost \$4.50.

Regal Prices Are Now \$3.35 to \$5.85

REGAL SHOES FOR MEN

MOORE & OWENS, Barre

Why, indeed? He—Why does a woman always think she ought to wear a smaller shoe than she can? She—Why does a man always think he ought to wear a larger shoe than he can?—Yonkers Statesman.

Not Sisters

Now and again you see two women passing down the street who look like sisters. You are astonished to learn that they are mother and daughter, and you realize that a woman at forty or forty-five ought to be at her finest and fairest. Why isn't it so?

The general health of woman is so intimately associated with the local health of the essentially feminine organs that there can be no red cheeks and round form where there is female weakness.

Women who have suffered from this trouble have found prompt relief and cure in the use of Dr. Pierce's Favorite Prescription. It gives vigor and vitality to the organs of womanhood. It clears the complexion, brightens the eyes and reddens the cheeks.

No alcohol, or habit-forming drugs is contained in "Favorite Prescription." Any sick woman may consult Dr. Pierce by letter, free. Every letter is held as sacredly confidential, and answered in a plain envelope. Address: World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.
